

Training & Outreach

BIAWA is available to provide comprehensive trainings and to attend conferences across the state to increase awareness and knowledge about brain injury. We send our knowledgeable staff into communities to provide in-service trainings to service providers such as Social Workers, Crisis Intervention Specialists, School Counselors & Nurses, and many more. To request a training for your staff or BIAWA participation in your conference/community event, please call

**BIAWA office at 206-897-5755
or toll-free at 877-982-4292**

How to Access Services

If you or someone you know could benefit from the services of the TBI Resource Center or if you have questions about our services, please call us during our regular business hours, Monday through Friday from 9AM until 5PM. A Resource Line Specialist will help direct you to the appropriate resource.

Working together to create a better
tomorrow...

The Washington Traumatic Brain Injury (TBI) Resource Center

The BIAWA's vision is a world where brain injury is prevented, and every person already affected by its impact benefits from resources that maximize his/her quality of life. The services of the **Washington TBI Resource Center** are an important part of what our organization does to actualize that vision with the provision of direct client services throughout the state of Washington for individuals with brain injuries, their caregivers and loved ones.

If you feel stuck...

- Navigating the Medical System.
- Applying for Social Security Benefits.
- Developing Education Interventions.
- Planning Vocational Training.
- Finding Legal Help.
- Talking to Loved Ones about Brain Injury.
- Facing Any Complex Issue Related to Brain Injury.

...we are here to help!

All services provided are free of charge to our clients.

Resource Line Specialists are available from 9AM until 5PM, Monday through Friday to assist callers as they navigate the challenges that arise as a result of brain injury. We strive to provide the optimum level of compassionate care, treating every caller's needs as equally worthy of our attention.

Resource Management is offered to persons with TBI, their families and caregivers. We provide clients with the option of over-the-phone or in-person assistance. Resource Managers help connect people to resources and support in their communities while working toward individualized, identified goals. The objective of Resource Management is to improve the quality of life for persons with Traumatic Brain Injury by assisting them, their families and loved ones fill in the gaps of needed services.

The BIAWA is excited to have
**expanded
Pediatric Resource Management
statewide April 1, 2012**

What is Pediatric Resource Management?

Pediatric Resource Management supports brain injury patients and their families with reintegration into their home communities during and subsequent to the patient's discharge process.

Patient and family centered, individualized assistance is designed to manage resources that meet the needs of children and youth while enhancing the caregiving capabilities of families.
