

Did You Know Your Neighborhood Isn't in a City?

Please join us to find out how things could change if you and your neighbors become part of the City of Fife. And tell us what you think!

Community Meeting
March 5, 2020, 6:30-7:00 p.m.
Fife Community Center
2111 54th Avenue E, Fife, WA 98424

What Is Happening?

Your property and the properties around you are an island in Pierce County—not an island circled by water, but rather by the City of Fife. Yet, you're missing out on benefits that your neighbors down the street currently have: access to services tailored for an urban environment and representation from the City Council, to name a few.

"Annexation" is the process of transferring an area from one jurisdiction to another. The annexation of your area from unincorporated Pierce County to the City of Fife is expected by State law and encouraged by regional planning policies.

On January 14, 2020, the City of Fife initiated the annexation process with the intention of transferring jurisdiction through an interlocal agreement between Pierce County and the City. There are two areas being considered for annexation, both are shown on the reverse of this sheet. But before we begin with the annexation process, we want to know your thoughts, concerns, and questions.

What's Next?

Pierce County and the City of Fife will work to ensure services are transferred smoothly. The elected councils of both jurisdictions will vote on details of the transfer, after which the City of Fife may vote to approve or deny the annexation.

How to Get Involved?

- Attend this Community Meeting
- Visit <https://www.piercecountywa.org/5748/Annexation> for more information and public hearing dates when available
- Attend public hearings, by both Fife City Council and Pierce County Council, concerning possible annexation approval
- Contact our staff noted below with questions and comments:

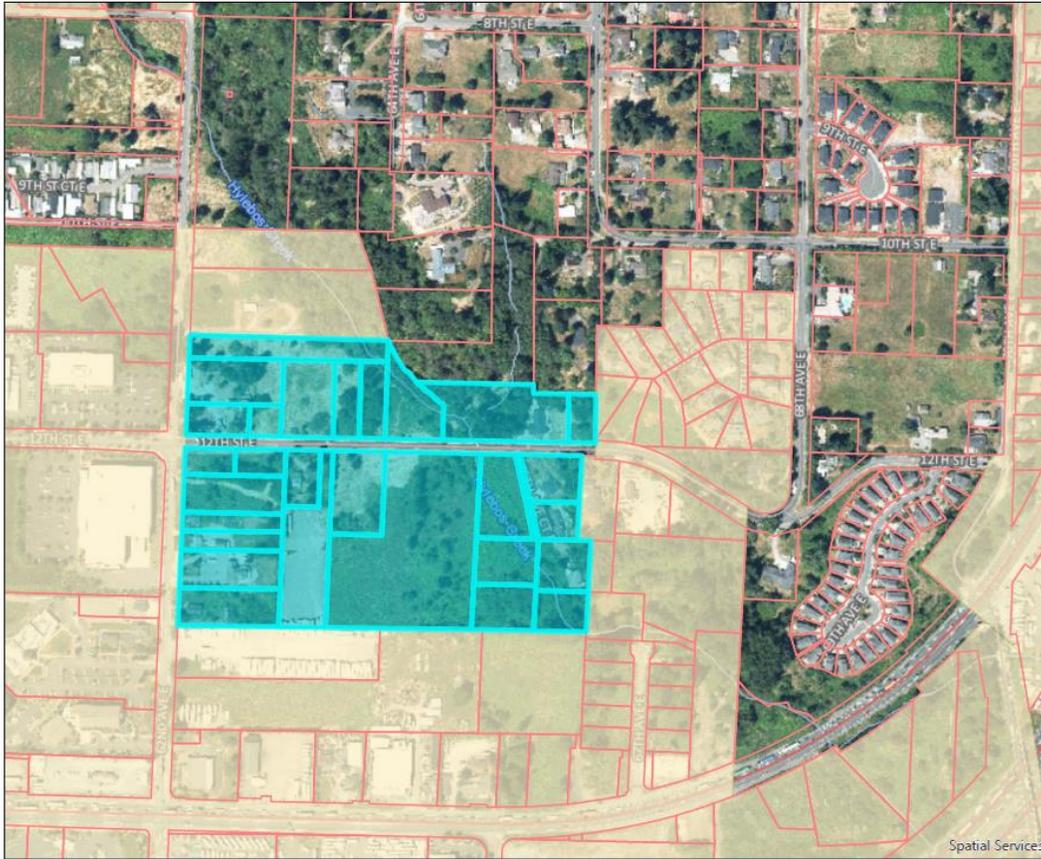

Dan Cardwell, Pierce County
(253) 798-7039
