

Pizza Instructions

After you've received permission to cook and have gathered all of the supplies and ingredients listed on the previous page, follow the instructions below to make a yummy pizza.

Instructions using a premade pizza crust:

1. Read your pizza crust package instructions, and preheat your oven to the temperature listed. Jenn's package said 450 degrees.
2. Cover your cookie sheet with a piece of parchment paper and place your pizza crust on top of the paper.
3. Spread some pizza sauce on your crust, leaving a little space all around the outside of the crust so that you have a place to hold your pizza without getting your fingers messy when you eat it. Jenn likes to sprinkle Italian seasoning onto her pizza sauce for more flavor.
4. Add your shredded cheese to your pizza. Spread it out evenly!
5. Add your favorite toppings to your pizza. If you're slicing vegetables, be sure to ask for assistance if you need it.
5. Add some more cheese on top of your other toppings.
6. Carefully place your pizza in the oven and set your timer for the time listed on your pizza crust package's instructions.
7. When your pizza is done cooking, your cheese should be melted, and your crust should be a golden brown. Using oven mitts, carefully remove the cookie sheet and pizza from the oven.
8. Let your pizza cool, and enjoy your tasty creation!
